

WAYNE STATE UNIVERSITY
COLLEGE OF EDUCATION

- DIVISION:** **Kinesiology, Health and Sport Studies**
- PROGRAM AREA:** **Sports Administration**
- COURSE:** KHS 6750 -- Fieldwork
- CREDIT HOURS/TIME:** 1-4 Hours -- The amount of credit varies with the complexity or, or time commitment to the field experience. As a general guideline, students are expected to be able to justify a minimum of 100 clock hours of involvement per credit received.
- SITE AND EXPERIENCE:** Site and content must be outside of the student's current employment responsibilities and experience base.
- REIMBURSEMENT:** Some organizations have historically offered monetary stipends to their fieldwork students. These are permissible and should be coordinated through the student's WSU advisor.
- SUPERVISION:** A mechanism will be established that allows regular communication among the fieldwork site supervisor, the student, and the KHS faculty supervisor. This communication must be documented.
- EVALUATION:** At the beginning of the fieldwork experience the site supervisor, student, and the KHS faculty supervisor will agree upon a series of behavioral objectives for the student to achieve. These objectives will form the basis of a midterm and final evaluation by the site supervisor and the KHS faculty supervisor. However, the WSU faculty supervisor is solely responsible for assigning a grade.
- At the end of the experience a written report of the fieldwork experience must be submitted to the KHS faculty supervisor. The format of this report will be determined by the KHS faculty advisor.
- GRADING:** The KHS faculty advisor will assign a final grade based upon an evaluation of the student's work by the site supervisor and the KHS faculty supervisor.
