Final Course Project (Small-Scale, Mini-Ethnography) – 40%

The final course project paper should include the following:

- **Introduction**
  - Paradigm discussion
  - Research purpose (The purpose of this study is to examine…)
  - Research questions

- **Research Method**
  - Site selection summary (site/situation, actors, activities)
  - Participants and their recruitment (define observation guidelines, describe level of participation and why)
  - Data collection strategies (field notes, etc., how the data collection interconnect(s)
  - Analysis strategies (domain, taxonomic, and componential analysis)

- **Research Findings** (description(s) of your findings, how the data fits together, etc.)

***Project Binder should be separated per section with tabs for organization***

- **Appendices** (items that must be included in your Project Binder)
  - Field notes (5)
  - Interview questions (introduction of yourself and study, proposed interview questions, and probes)
  - Interview transcripts/interview notes (2)
  - Researcher reflexivity journal (5)
  - Participant/observation guidelines
  - Trustworthiness justification (define concept of trustworthiness, define criteria for trustworthiness, state if it is possible to maintain trustworthiness for your mini-scale project (it’s not…)
  - Vignettes (3) from your data collected
  - Data analysis worksheets (domain, taxonomic, and componential worksheets)
  - WSU IRB/HIC CITI completion report and Final Course Project (Small-Scale, Mini-Ethnography Agreement
