ATTENTION STUDENTS WITH DISABILITIES:

If you have a documented disability that requires accommodations, you will need to register with Student Disability Services (SDS) for coordination of your academic accommodations. The Student Disability Services (SDS) office is located at 1600 David Adamany Undergraduate Library in the Student Academic Success Services department. SDS telephone number is 313-577-1851 or 313-577-3365 (TDD only). Once you have your accommodations in place, I will be glad to meet with you privately during my office hours to discuss your special needs. Student Disability Services’ mission is to assist the university in creating an accessible community where students with disabilities have an equal opportunity to fully participate in their educational experience at Wayne State University. Please be aware that a delay in getting SDS accommodation letters for the current semester may hinder the availability or facilitation of those accommodations in a timely manner. Therefore, it is in your best interest to get your accommodation letters as early in the semester as possible.

ATTENDANCE POLICY

All students are expected to attend class, be punctual, and remain in class until the day’s work is completed. It is also expected as a part of attendance that students will appear attentive to the instructor and respectful of other students, and will not talk, read material other than the textbook, or engage in other activities that interfere with the course while the class is meeting.

If the instructor begins to note problems with attendance or behaviour that interferes with the teaching process, this will be noted and the student will be made aware of the problem. At that point, the instructor will begin to document the student’s attendance and disruptive behaviour and if further problems are noted the student’s grade will be lowered by one letter.

STATEMENT OF PROFESSIONALISM

“The College of Education requires students to be effective counselors, to behave in an ethical manner at all times (see the statement on Ethical Dimensions of Counseling in the Rehabilitation Counseling Handbook as well as the Practicum and Internship Handbook). Your behavior must be appropriate always.

Active participation in all class activities and discussion is expected. Come to class with ideas, agreements or disagreements on the reading assignments. We expect you to question our ideas and those of your peers.

Professional dress, behavior, and language are required always.
Please put all electronic devices on vibrate or turn off during class and when in your assigned school.

The Student Code of Conduct can be viewed at:

ACADEMIC MISCONDUCT/ETHICAL VIOLATIONS

All acts of dishonesty (plagiarism, copying, etc.) in any work for any course will constitute academic misconduct. In this regard, the Academic Regulations Policy noted in the College of Education Graduate Programs and University Graduate Programs Catalogue will be followed in the event of any acts of academic misconduct. In addition, students need to be aware that the professor has at his or her discretion the aright to reduce a students’ grade for that class, assign a failing grade, or report the student to the Dean of the College of Education, which could result in removal from the program.

Plagiarism

Plagiarism is using others’ ideas and words without clearly acknowledging the source of that information. Whenever you incorporate other people ideas or writings into your own writing, it is extremely important to give credit to those individuals by referencing their names.

How can students avoid plagiarism?

To avoid plagiarism, you must give credit whenever you use

- another person’s idea, opinion, or theory;
- any facts, statistics, graphs, drawings—any pieces of information—that are not common knowledge;
- quotation of another person’s actual spoken or written words;
- or paraphrase of another person’s spoken or written words.

Strategies for Avoiding Plagiarism

1. Put in quotations everything that comes directly from the text especially when taking notes.
2. Paraphrase, but be sure you are not just rearranging or replacing a few words.
3. Check your paraphrase against the original text to be sure you have not accidentally used the same phrases or words, and that the information is accurate.

RELIGIOUS OBSERVANCES POLICY

Because of the extraordinary variety of religious affiliations represented in the University student body and staff, the Wayne State University calendar makes no provision for religious holidays. It is University policy, however, to respect the faith and religious obligations of the individual. Students who find that their classes or examinations involve conflicts with their religious observances are expected to notify their instructors well in advance so that alternative arrangements as suitable as possible may be worked out.

NOTE: The National Rehabilitation Association provides guidelines to use when writing or speaking about persons with disabilities. Please try to incorporate these suggestions into your written and spoken communication.

1) Avoid using adjectives as nouns, such as in: "the disabled", "the deaf", "the blind", the "handicapped", etc. It is more acceptable to say, "people who are deaf", or "persons with disabilities".

2) Where possible emphasize the importance of the individual rather than the disability by saying "person" or "individual" before describing the disability. For example, say, "persons with disabilities" or "people with learning disabilities", rather than "learning disabled people".

3) Avoid using descriptors such as "unfortunate", "pitiful", "poor", and other such value laden words. When possible, use descriptors, which emphasize a person ability, such as: "uses a wheelchair or braces" rather than "confined to a wheelchair", since a wheelchair enables mobility; without it, the person is confined to bed.

4) Do not sensationalize the onset or effects of a disability with phrases such as: "afflicted with" or "suffering from". It is more acceptable, and accurate to say, "the person has or had____________", "the person has experienced____________", or a person with__________

5) Avoid implying sickness when discussing disabling conditions. To the general public, "disease" has connotations of being unsightly and contagious. A disability itself is not a disease, nor is the person with the disability necessarily chronically ill.
